

ELF Book 10 Unit Test (Unit 9)

Date:

Class:

Student Name:

1. Choose the correct word for the blank.

I _____ only 25kg. I need to eat more

① run

② **weigh**

③ eat

2. Match the word with the OPPOSITE meaning.

- | | | |
|-----------|---|--------|
| (1) weak | ■ | light |
| (2) pull | ■ | strong |
| (3) far | ■ | close |
| (4) heavy | ■ | push |

3. Put pieces together and write the complete word in the blank.

gra

le

ace

ho

vity

sp

I can't use this umbrella. It has a hole in it.

4. Choose the correct place for "about" in the sentence.

Tell ① me ② more ③ yourself ④ please.

5. Choose the different "about" from the others.

- ① **I have a question about gravity.**
- ② I get up at about 7 every morning.
- ③ It is about 10 meters.
- ④ It only takes about 10minutes.

[6~7] Read and answer each question.

Laura: What is gravity?

Matt: It's the "pull" between two things in space. Big, heavy things have more gravity than small, light things. Earth is much bigger and heavier than the moon. So gravity is much _____ on the moon. On the moon, I weigh only about 1/6 of my weight on Earth.

6. Choose the correct word for the blank.

① bigger

② smaller

③ more

④ **less**

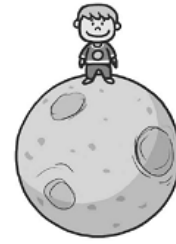

7. Fill in the blank with the correct number

On earth

60 kg

On the moon

10 kg

[8~10] Read and answer each question.

Matt : I'm a space scientist. I will tell you about my landing on the moon.

I jumped so high on the moon. Because gravity is weak on the moon. It's only about 1/6 of gravity on Earth.

I saw big holes in the ground. Big rocks made the holes when they hit the moon.

The Earth rose over the moon. I saw it, and it was beautiful!

The moon is about 400,000 km from Earth. So I had to fly about 800,000 km to get there and back!

8. Why did Matt jump so high on the moon?

- ① Because Matt can jump well.
- ② **Because the gravity on the moon is weak.**
- ③ Because there are big holes in the moon.
- ④ Because the moon is far from earth.

9. What did Matt see on the moon?

- ① water
- ② **Earth rising**
- ③ plants
- ④ sunrise

10. Read and check T(true) of F(false).

(1) Gravity of the earth is 6 times stronger than gravity of the moon.

T ☐ F ☐

(2) Big rocks make big holes when they hit the Earth.

T ☐ F ☐

(3) The moon is about 800,000 km from Earth.

T ☐ F ☐
