[6~7] Read and choose the best answer.

Hi. I'm Roy. Now I am on an island. It is in the south half of the earth. The island has lots of plants and trees. They are very beautiful. I looked here and there, and I lost my way. My goal is going north to get a boat. I have no compass with me. But having no compass is not a problem. Having a watch is enough to find north. My father showed me.

6. Read and check T(true) or F(false).

(1) Roy is on an island in the north half of the earth.

T ☐

F ☒

(2) There are beautiful plants and trees on the island.

T ☒

F ☐

7. Which is correct about the reading?

- ① He doesn't like the island.
- ② He missed the boat for north.
- ③ He lost his compass on the island.
- ④ **He lost his way to north.**

[8~10] Read and answer each question.

Father's note

Finding north with your watch is easy. Here is how to do it.

- Step 1** Hold the watch level with the ground.
- Step 2** Point the hour hand at the sun.
- Step 3** Find the number twelve on your watch.
- Step 4** Draw a line midway between the hour hand and the number twelve.
- Step 5** That line points north in the south half of the earth.

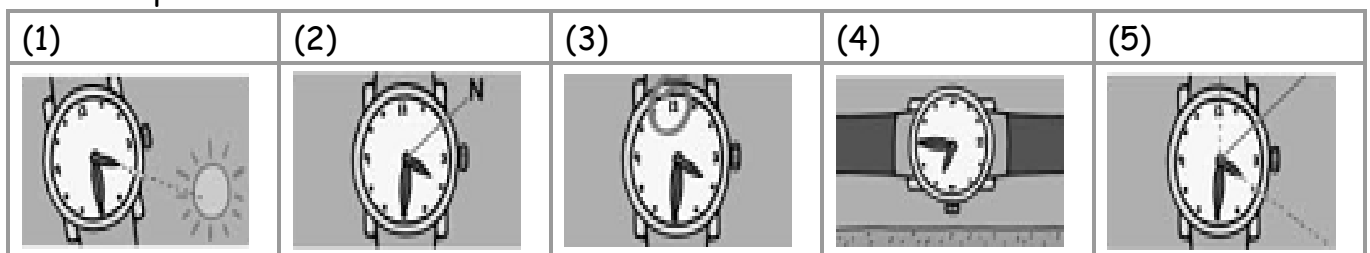

* In the north half of the earth, the midway line will point south.

North is in the opposite direction.

8. What is the father's note about?

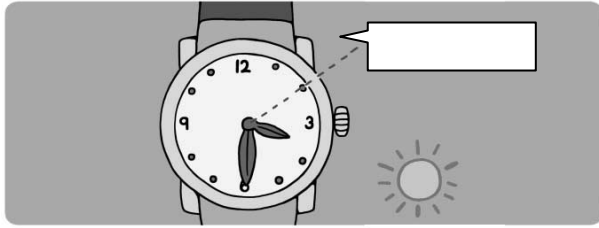

- ① Finding the sun in the sky
- ② Finding north with a compass
- ③ **Finding north with a watch**
- ④ Finding the number 12 on a watch

9. Put the pictures in order.
