③ Tom and Mary went to the shop.

④ Beth likes to see paintings.

[6~7] Read and put pictures in correct order.

When people didn't have any planes, a man in Greece made a machine with big wings. He flew only 200 meters. But it was dangerous. Then, a man in China used an oil lamp and a large paper bag. The lamp heated the air in the bag, and it floated! It was a kind of early balloon. Later, people made the hot air balloon.

(1)

(2)

(3)

(4)

_____ ⇒ _____ ⇒ _____ ⇒ _____

[7~10] Read and answer each question.

People long ago made balloons to fly in the sky. How could a balloon rise up into the air? People filled a balloon with hot air or light gas. Then, the air inside a balloon got lighter than the outside air. So the balloon could go up in the sky. And wind carried the balloon.

Animals first went up in a balloon. Going up in a balloon looked very dangerous. So people took them in a balloon to put it to the test. The animals had a great trip. When the air inside the balloon cooled, the balloon landed on the ground safely. Later, people began to ride in a balloon.

7. What is this reading about?

- ① How people made the airplane
- ② How people used balloons to fly
- ③ How people flew without a balloon
- ④ How animals traveled in a balloon

8. A balloon rises up into the air because _____.

- ① the outside air is lighter than the air inside a balloon
- ② wind makes the balloon lighter than the outside air
- ③ the air in the balloon is lighter than the outside air
- ④ animals inside the balloon are light

9. Choose the correct word for the blank.

_____ had the first chance to ride in a balloon.

- ① animals
- ② people
- ③ plants
- ④ things

10. Read and check T(true) of F(false).

(1) The balloon comes down when the air in it gets cold.

T ☐ F ☐

(2) These days, the balloon is too dangerous to ride in.

T ☐ F ☐
