[6~10] Read and answer each question.

Many sea animals are dead. It is because we live in a dirty, sick world. It is dirty and sick because of pollution. Pollution can be almost anything - smoke, garbage, and even heat. Smoke can make air dirty. And plastic wastes make the sea dirty. They also hurt sea animals badly. Sea animals think the bags and bottles are jellyfish. So they eat them. Then the plastic goes into the animals' bodies and kills them. We have to do something to help sea animals now. We should not use so many plastic bags and bottles. Use plastic bags and bottles again. And carry cloth bags for shopping. Also, don't throw plastic into the sea.

6. Why do sea animals die?

- ① Because many people hunt them.
- ② Because people throw bottles at them.
- ③ Because there are few jellyfish to eat.
- ④ Because they eat plastic bottles.
