

ELF Book 11 Unit Test (Unit 8)

Date:

Class:

Student Name:

1. Choose the correct word(s) for the blank.

Jane _____ her face with her hands.

① washed

② turned

③ **covered**

2. Choose the one which means the same as the underlined part.

Jack likes to collect old coins.

① bring back

② **bring together**

③ come along

④ take away

3. Put pieces together and write the complete word in the blank.

ell

ion

mill

uid

sq

sh

Squids have ten arms and a long, soft body.

4. Choose the one that is NOT correct.

I will become fifteen years old last month.

①

②

③

④

5. Circle the correct one.

(1) Jack goes to work at 9:00 (**every**, last, next) day.

(2) Bruce will be a student (every, last, **next**) year.

[6~7] Read and choose the best answer.

A fossil is part of animals or plants from long ago. Those animals or plants don't live any more. When an animal or plant died, sand and mud covered it. Next, the sand and mud turned into rock over many years. The animal parts turned to rock, too. And we see the rock now. That's a fossil.

6. What is the reading about?

① a rock

② an animal

③ a plant

④ **a fossil**

7. Write (1) ~ (4) in order.

Sand and mud change to rock.

3

An animal dies.

1

Sand and mud covers a dead animal.

2

The dead animal in sand and mud turns to rock.

4

[8~10] Read and answer each question.

Reporter: Hi! Welcome to "Shops Around Town!" Tonight, we're at a fossil shop!

Look at all the old fossils! Here's a big one! It looks like a sheep's horn!

Clerk: That's an ammonite! Ammonites lived in the sea about 65 million years ago. Ammonites were like the squid today. But there is a difference between them. Ammonites had shells. Squid do not have shells. Ammonites ate fish and other small animals. Now people collect ammonite fossils because they are beautiful. So we sell them here!

8. Choose the picture of Ammonite.

①

②

③

④

9. Where can you see Ammonite today?

① in the sea

② in the river

③ under the ground

④ **at the store**

10. Read and check T(true) of F(false).

(1) Ammonite ate shells long ago.

T ☐

F ☐

(2) Ammonites were different from the squid.

T ☐

F ☐
