

ELF Book 11 Unit Test (Unit 1)

Date:

Class:

Student Name:

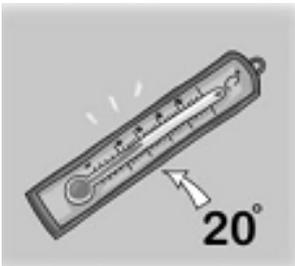

1. Choose the correct word(s) for the blank.

It is warm now, and the snow is beginning to _____.

- ① freeze
- ② **melt**
- ③ cover

2. Look at the picture, and write the correct word.

⇒ 20 degrees

3. Put pieces together and write the complete word in the blank.

loo
eeze
blo
fr
ig
ck

My father is building a house with blocks of wood.

4. Choose the correct one for the blank.

_____ sleep for two hours in the afternoon.

- ① Will Tom
- ② **The workers**
- ③ Could do
- ④ They are

5. Choose the one that is NOT correct for the blank.

_____ went to France last summer.

- ① My father and I
- ② They
- ③ **Very cold**
- ④ Jack

[6~7] Read and choose the best answer.

Hi! I am Tina. I live at the North Pole. People often call us "Eskimos." But we do not call ourselves Eskimos. We call ourselves "Inuit." Inuit means "people" in our language. Our land is very cold. So we build igloos, or round snow houses, to stay warm in the cold weather. We hunt animals. We wear animal skins.

6. What does Inuit means in Inuit words?

- ① pole
- ② **people**
- ③ house
- ④ cold

7. What can not you know from the reading?

- ① the weather at the North Pole
- ② the Inuit house
- ③ **the Inuit food**
- ④ the Inuit clothes

[8~10] Read and answer each question.

Inuit build igloos with blocks of heavy snow. Igloos have a window, a door, and a hole to get fresh air. Igloos can be big or small. Sometimes they make a big igloo out of two or three little igloos. They make tunnels between the little igloos. Then they have a big igloo!

Igloos are warm inside. This is because an igloo's snow walls do not lose heat. Snow has power to keep heat inside.

People have a little lamp or make a fire inside igloos. The snow of igloos may melt a little.

But the snow freezes again, and it makes igloos strong. So, they don't melt away, and we can stay warm.

8. Igloos do not lose heat because of _____.

- ① fresh air
- ② **snow wall**
- ③ a fire
- ④ a lamp

9. How do Inuit make a big igloo?

They make _____ between the little igloos.

- ① doors
- ② holes
- ③ **tunnels**
- ④ walls

10. Read and check T(true) or F(false).

(1) Igloos get fresh air through a hole.

T

F

(2) We can't have a lamp in side igloos because igloos will melt away.

T

F
