

# ELF Book 12 Unit Test (Unit 14)

Date:

Class:

Student Name:

1. Choose the correct word for the blank.

I have too much homework. It is \_\_\_\_\_ to finish it today.

- ① expensive                      ② likely                      ③ impossible

2. Choose the word which means the same as the underlined part.

Pluto is just a small object beyond Neptune.

- ① over                      ② inside                      ③ next to                      ④ far from

3. Put pieces together and write the complete word in the blank.

scope                      ist                      scient  
 net                      tele                      pla

People live on Earth, but they cannot live on other \_\_\_\_\_s.

4. Choose the one that is NOT correct.

- ① one/ first                      ② five/ fiveth                      ③ nine/ ninth                      ④ ten/ tenth

5. Choose the correct word.

1 <sup>st</sup>	2 <sup>nd</sup>	3 <sup>rd</sup>	4 <sup>th</sup>

- (1) There are (four, fourth) Indians.  
 (2) The (two, second) Indian is not wearing a head dress.  
 (3) The (three, third) Indian is boy.

[6~8] Read and answer each question.

We can see the eight planets in our solar system. Mercury is the first planet from the sun. Venus is the second, and Earth is the third. Mars is the fourth, and Jupiter is the fifth. Jupiter is the largest of all eight planets. Then Saturn is the sixth, and Uranus is the seventh. The eighth planet — the last — is Neptune.

6. What is the reading about?

- ① The order of eight planets
- ② How people found the solar system.
- ③ The largest planet in solar system
- ④ How eight planets got their names.

7. What is the closest planet to the sun?

- ① Jupiter
- ② Earth
- ③ Neptune
- ④ Mercury

8. Read and check T(true) or F(false).

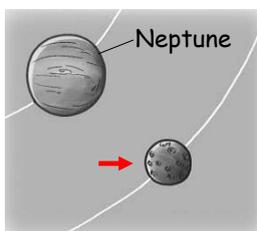

- (1) Earth is smaller than Jupiter. T  F
- (2) Mars is closer than Venus to the sun. T  F

[9~10] Read and answer each question.

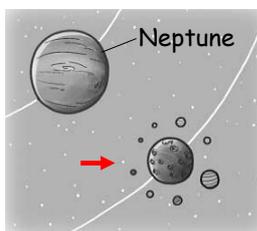

Pluto was the ninth planet, but it is no longer a planet. Scientists decided Pluto is not a planet. Why? First, Pluto is too small. Second, Pluto has a lot of objects around it, but it cannot control them. A planet must control other objects near it. Now Pluto is just a small object beyond Neptune.

9. Choose the correct picture of Pluto.

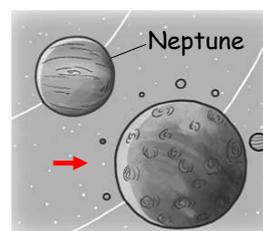

①

②

③

10. Check the correct one.

X- FILE # 325 Xanadu

- I . It's smaller than Pluto.
- II . It has four moons and many small objects around it.
- III . It does not control any objects around it.

Is Xanadu a planet? Yes  NO
