- ① clean                      ② a car                      ③ nice                      ④ beautiful

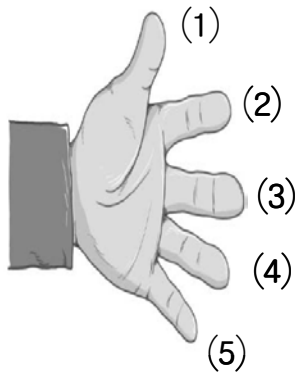

[6~7] Read and answer each question.

Each finger has a name. Next to your thumb is the index finger. The next is the middle finger. After that is the ring finger. The small one is the pinky. The thumb has 2 bones, and each finger has 3 bones. We can move our hand freely because of these small bones.

6. Why can human hands move freely?

- ① Because we have a thumb.  
② Because the pinky is small.  
③ Because a thumb and each finger have 2 bones.  
④ Because hands have small bones.

7. Write the name of each finger.

(1) Thumb

(2) \_\_\_\_\_

(3) \_\_\_\_\_

(4) \_\_\_\_\_

(5) \_\_\_\_\_

[8~10] Read and answer each question.

What will life be like without hands? We put on clothes and cook with our hands. We hold books and use computers with them. Some people can talk with their hands. We can also feel things with them. How can people do things with their hands? Look at your hand. Your hand has four fingers and one thumb. The thumb works with each of your fingers. So you can pick things up and use tools. Most animals don't have a thumb and fingers. So they can't use tools as well as humans

8. Choose the right one for the blank.

This reading is mainly about importance of \_\_\_\_\_ in our life and how they work.

① thumb

② fingers

③ hands

④ tools

9. Choose what we can not do with hands?

① use computer

② taste food

③ feel things

④ pick things up

10. Read and check T(true) or F(false)

(1) Animal paws don't have a thumb and fingers.

T ☐ F ☐

(2) The thumb works alone.
