No, she didn't

(3) Did she do homework?

Yes, I do.

(4) Do you speak any Korean?

I got here by bus.

[6~7] Read and choose the best answer.

Sometimes you remember your dreams, but sometimes you forget them. We dream because when we sleep at night, our brain does not fall asleep. It is awake, so we can think and imagine during our sleep. You have worries. They may come into your dreams. You may also dream about your family or friends. Anything in your life can come into your dreams. We dream up to four times a night. But we do not remember all the dreams.

6. Why do we dream?

- ① Because we have worries.
- ② Because we fall into a deep sleep.
- ③ Because our brain sleeps at night.
- ④ **Because we imagine things during our sleep.**

7. Read and check T(true) or F(false).

(1) We do not always remember our dreams.

T ☐

F ☐

(2) We can have only one dream a night.

T ☐

F ☐

[8~10] Read and answer each question.

Animals dream, like humans. They sleep in the day and at night. Some animals sleep many hours a day. Lions sleep during the day. Sometimes they move when they sleep. Their feet move, and their faces move. They also make some sounds. They are dreaming! Lions are hunters. So they dream about hunting animals.

Like zoo animals, your cat or dog dreams, too. Dogs dream about their day. Did you play with the dog? Did your dog run in the park? Then your dog dreams about those things.

8. What is this reading about?

- ① Animals sleep many hours a day.
- ② Animals dream about hunting.
- ③ **Animals dream like people.**
- ④ Animal's dream is interesting.

9. How do we know animals dream? Choose TWO clues.

- ① **They move their body.**
- ② They sleep with eyes open.
- ③ They run and hunting.
- ④ **They make strange sounds.**

10. What do pets dream about?

- ① They dream about hunting animals.
- ② They dream about their food.
- ③ **They dream about their day.**
- ④ They dream about their owner.
